

NORTHWIND TRADERS — BUSINESS INTELLIGENCE REPORT

MECE Analysis Framework

Prepared by: Pavan Kumar Magandi

 **Objective:** Create a visually appealing, interactive Power BI dashboard communicating key performance metrics for Northwind Traders — covering sales analysis, customer segmentation, inventory trends, and employee performance to empower data-driven decision-making in the wholesale specialty foods market. Period: Aug 1994 – May 1996.

90 Customers · \$1.27M Revenue · 830 Orders · 9 Employees · 29 Supplier Countries · 37 Late Shipments

Dashboard	Scope	Sub-Areas	Business Questions Answered	Key Metrics
Overall Sales & Revenue	Overall revenue performance & product sales trends	- Total Revenue & Order Volume - Quarterly Revenue by Category - Top Selling Products (treemap) - Category-wise Revenue Trends	- What is the total revenue generated? (\$1.27M) - Which product categories drive the most revenue? - Which individual products are top sellers by volume? - How does quarterly revenue trend across categories?	\$1.27M Revenue 830 Orders 8.49 Avg Ship Days - Beverages · Condiments
